

CEI Undergrad Research Assistance Grant

CEI recognizes the value of embedding undergrads in labs to continue their research during the academic year following their initial summer REU or ALVA research award. This program provides partial support for up to 4 exceptional students who are working in CEI laboratories. The following are the program guidelines.

1. Students must be full time UW students who have participated in the Clean Energy ALVA or Clean Energy Bridget to Research REU program.
2. The sponsoring lab must contribute ½ of the wages- a 1:1 match
3. Students are expected to work 12 hours a week at \$15 an hour, up to \$1800 a quarter stipend.
4. Students may receive up to 3 quarters of support, they do not have to be consecutive quarters
5. Students apply through the CEI website, they submit a letter of support from their prospective lab PI, a transcript, a description of the nature of the research and the value to personal career goals, and indicate which quarters they would like to be funded.
6. Students must submit a quarterly report for their support that consists of one slide explaining the project and progress for the quarter and contains 1 or more images of a key result (could be a plot, photo of sample, instrument they build etc.) and one new photo of the student working in the lab, plus a list of any presentations made or papers co-authored by the student

Selection

The deadline for application is August 24th.

Criteria

- Strong evaluation and endorsement by PI
- Learning opportunity of the research position.
- Alignment of the research with student career goals.

Application

Use the online form to submit your CV, transcript, and project description and a brief explanation of how this fits with your career goals. The site will automatically contact your lab PI for a letter of reference.
